

# Fixing the Ford

In the early days of the automobile, a Model-T Ford stalled in the middle of the road. The driver couldn't get it started, no matter how hard he cranked or how much he tried to adjust the spark. Just then, a chauffeured limousine pulled up behind him, and a wiry, energetic man stepped out from the back seat and offered his assistance.

After looking under the hood and tinkering with something for a few minutes, the stranger said, "Now try it!" Immediately, the engine leaped to life and purred like a kitten.

Extending his hand to the driver, the well-dressed man identified himself as Henry Ford. "I designed and built these cars," he said, "so I know what to do when something goes wrong."

In Psalm 139, David said that God, Who created us and has planned our lives, understands us completely. He knows when we sit down and when we rise up, and He knows our thoughts even before they come into our minds. When nothing seems to be going right, we can turn to Him with confidence. He knows the difficulty of our situation and exactly what we need.

So, as you go about your work today in Life Care, Century Park and Life Care at Home, be comforted in that knowledge.
