

His Eyes Everywhere

In this age of electronics, we have all become aware of bugging devices. A person's office, hotel room or telephone can be monitored so that every sound is picked up.

This is accomplished through highly sensitive microphones that are so small they can easily be hidden. Heads of state, government officials and business people in strategic positions must be exceedingly careful of what they say, especially when entering a strange setting. They must think twice before they speak.

Did you ever stop to think that God sees everything we do and hears everything we say every moment of the day? This truth is both comforting and sobering – comforting because God stands ready to deliver us when we are in trouble (Psalm 33:18-19), and sobering because “the eyes of the Lord are in every place.”

What a profound effect this should have on the way we live!
