

## Our May Journey Class

Life Care welcomes 43 associates to the May 2010 edition of *Your Life Care Journey: Just the Beginning*. These new clinical and management associates arrived by airplane and automobile Saturday to begin their orientation program, which will conclude Wednesday at lunch.

Sunday's schedule opened with breakfast and a program of music and inspiration by the Chastain Family. It was followed by an evaluation of leadership styles. The group then launched into activities such as visiting the Tennessee Aquarium, whitewater rafting on the Ocoee River, bowling and shopping at Hamilton Place Mall.

This morning started with a patriotic emphasis, a presentation of Life Care's past, present and future by Chairman Forrest Preston and President Beecher Hunter, followed by educational sessions. This evening, the orientees will be participating in a dinner and boat rides on Lake Ocoee, hosted by Forrest and Kathleen Preston. Tuesday's agenda includes more educational sessions as class members are introduced to resources, support personnel and policies to support their work. The dinner program will spotlight the work of Life Care's director of music services, Jimmy Rhodes. Wednesday's closing events will focus on leadership and its value to the organization. After a closing ceremony at lunch, the Journey participants will depart for home – except for regional and divisional leadership, who will stay through Thursday.
